

1. KLOVE is the ONLY music radio station my wife and I listen to. It is encouraging and provides clean, uplifting music, which is nearly impossible to find on the radio these days.
2. If KLOVE were displaced there would be absolutely NO music worth listening to on the radio. Many people in this community feel the same as I do.
3. KLOVE radio station is in the public's interest because their program is listener-supported and is widely listened to. The Christian music they play can only be heard on this one station here. Without it, as I said, there is no music on the radio worth listening to.
they play is Christian
